Title VI update: No changes in the Civil rights program since the last submittal.

Felicia Webb explained Title VI is a program of non-discrimination on the basis of race, color, or national origin. CATA's Title VI program describes CATA's compliance with Title VI, including the level and quality of transit service, translated materials, outreach and inclusion of minority and LEP persons, and the method of addressing Title VI complaints. There haven't been any complaints since the last submission. CATA is required to update this program every three years and submit to the FTA Regional Civil Rights Officer for review and feedback to be in compliance with federal regulations. The Title VI Program update needs to be approved by the Advisory Board.
